DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-9, 17-22 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by U. S. Patent No. 6,990,588 to Yasukura.

As per claims 1, 2, 18 and 19, Yasukura discloses performing a first user authentication process aafter a user has input a command for control of a controlled device (col. 22, lines 13-26), confirming whether a second authentication for said controlled device is required, if said user authentication was successful (col. 22,

lines 37-68) and performing a secondary authentication process if the secondary authentication process is necessary (col. 23, lines 1-25).

As per claims 3, 4 and 9, Yasukura discloses comparing user authentication information input by a user with corresponding stored user authentication information (see at least the abstract).

As per claims 5-7, Yasukura discloses performing a secondary authentication process if the secondary authentication process is necessary comprises: transmitting an authentication data to said controlled device if a secondary authentication is required, wherein the controlled device compares the authentication data to stored data (col. 11, lines 47-53).

As per claim 8, Yasukura discloses wherein the authentication data comprises biometric information (see at least the abstract).

As per claim 17, Yasukura discloses wherein transmitting authentication and control data comprises: accessing information from a memory m~ti-t-device regarding a communication associated with said control device; and transmitting data through said communication device (fig. 6).

As per claim 20, Yasukura further discloses comprising a display device configured to display a list of controllable devices (col. 17, lines 17-25).

As per claim 21, Yasukura discloses wherein the input device comprises a biometric information input device configured to input biometric information of a user (see at least the abstract).

As per claim 22, Yasukura discloses wherein said remote control apparatus comprises two or more communication ~ devices, and wherein information on said communication devices is stored in said memory.(fig. 1).

Allowable Subject Matter

Claims 10-16, 23 and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas R. Peeso whose telephone number is 571 272-3809. The examiner can normally be reached on Mon.-Fri, 7:00 a.m. to 3:30 p.m. The central fax number for the office is 571 273-8300.
